European LIFE Project

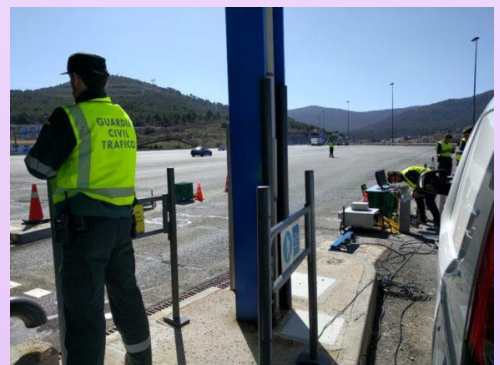

Technical advances

- Finished the **software design** to identify in real time the high emitting vehicles. The tool allows you to process data using Big Data

- Awareness campaign in Madrid** begun:
 - The emissions of the Madrid **fleet** have begun to be monitored.
 - The RSD is being deployed in different streets of the capital
 - The goal is to measure more than **700,000 vehicles per year**.

- The operative campaign with the **Civil Guard** continues
 - The objective is to **identify trucks** that exceed the allowable emission limits

Events

Eurocities Environment Forum meeting - “Low emission cities for cleaner air and climate mitigation”

Organized by EUROCITIES from October 17 to 19 in Tampere. Elitsa Panayotova, Sofia DA, participated in the Forum. During her intervention, she presented LIFE GySTRA project, with the focus on the fleet demonstration that will take place in Sofia city.

Conference on energy alternatives for sustainable transport and mobility.

12/12/18 - Madrid Auditorio del Colegio de Ingenieros de Caminos Canales y Puertos
Talk: “Traffic Emission Control with Remote Detection Devices”

Seminar: Remote sensing data and low emission zones.

12/12/18 - Venue: FIA Foundation, Trafalgar Square:
“Remote Sensing Technology and its future applications in Europe”
Javier Buihigas (OPUS RSE) and Petko Anchev (SOFIA DA)

LIFE GySTRA at school... again

Representatives of the LIFE GySTRA project spent a wonderful afternoon with children from Pre-school Education and Primary Education learning how vehicles pollutes the cities and how to avoid it to have a clean air in order not to have to wear a mask on the street.

15º Meeting Green Entrepreneurship #PorElClima.

14/12/18 - Fundación Biodiversidad en Madrid del Ministerio para la Transición Ecológica y cofinanciado por el Fondo Social Europeo.
Talk: “Monitoring of traffic emissions in real time to reduce emissions in cities”

Next steps

- First **results** of awareness and operational campaigns
- Design of RSD+ on road validation system

- Event in Brussels: Zero emission cities: exchange of best-practices between EU cities and regions

- Monitoring Meeting will take place on 08/04/2019
